

# Carrot soap

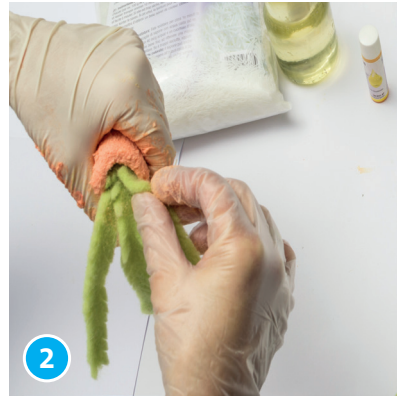

## Used Materials:

	Article Number	Quantity::
Soap sprinkles	477753	1
Soap colouring, 10 ml orange	497160	1
Soap colouring, 10 ml yellow	497159	1
Soap scent oil , Made from plant material, Jasmin	466185	1
Felt wool band, light green	566210	1
One way protective gloves	936396	1

## Recommended Materials:

salad oil, vegetable oil, bowl for mixing, warm water

## Instructions:

1: First cut some approx. 7–10cm long pieces from the felt wool. Then cut a pattern in the long sides of the pieces to create stripes looking like carrot herb.

Take a bowl and the soap sprinkles, put the sprinkles in the bowl. Now take on the gloves and add some orange and yellow soap colour. Moreover add water and oil as much as the description says and knead it, till it's a thick mass.

2: In order to get a shape looking like a carrot, form a roll, that is pointed at one end. At the upper blunt end fix the prepared felt stripes. Take a bit of the mass and put it over the stripes to attach them.

3: To get a stronger colour result, drop a little bit of the orange soap colour on the carrot and apply it.
