Glass beads – Briolette cut, stone grey, 30 pcs	725546	1

#### Recommended materials/tools

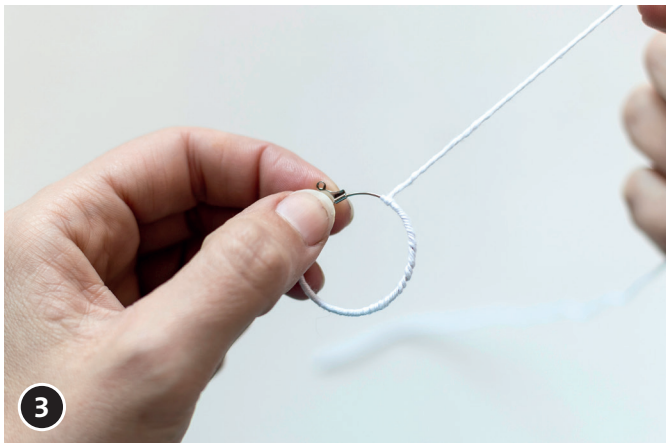

Jewellery pliers – set of 3	512509	1
-----------------------------	--------	---

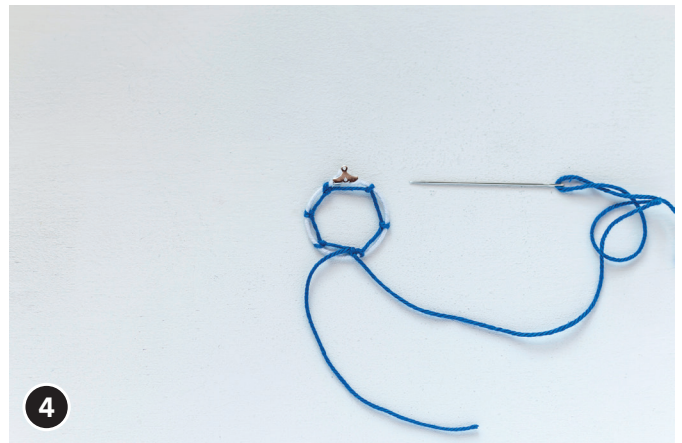

1 First of all, thread the white yarn in the eyes of the metal pendants

2 Step by step weave the dreamcatcher in the interior of the metal pendant, thread beads.

3 Next, wind the white yarn around the creole earring.

4 After the Creole is completely winded around, thread the blue yarn in order to weave your dreamcatcher.

5 Cut the chain into parts. Shorten parts to the desired length.

6 Now hang the blue beads on the chains using small metal rings.

Hang all elements on the pendant, again use the split rings. You can also use blue leather cords for better colour effect.

Now the black leather cord can be hooked. We recommend doing a knot so you can adjust the length of the necklace later.

Now your necklace with the dreamcatcher is finished!

*OPITEC Creative team wishes you lots of fun!*
