506702

1

Mosaic – Grout, 1 kg

601952

1

#### Recommended materials/tools

Silhouette scissors – Creative set, 2 pcs

306519

1

1 Divide the ball into two parts and remove carefully the hooks.

2 Start to glue mosaic stones on the upper surface of the ball.

3 Glue it from top to the bottom. This way the mosaic will not slip down. The option is to use the silicone glue.

4 When the stones are dry, you can prepare the grout to fill the space between the stones (prepare the grout according to the instruction).

5 Spread the grout on the mosaic.

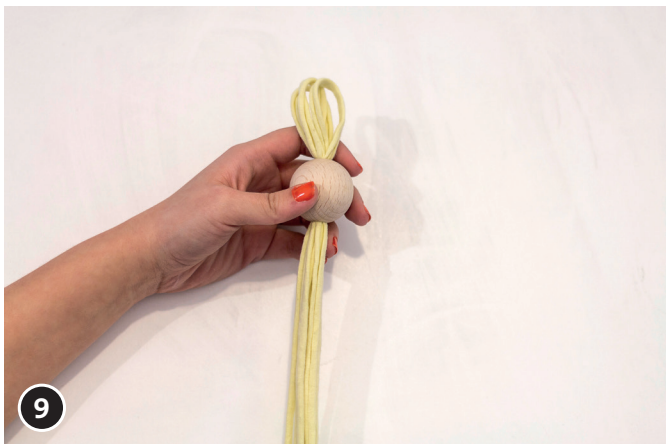

6 Remove the excess of the grout carefully with the cloth. Leave the ball to dry for 24 hours.

7 Cut three pieces of Zpagetti, the length of them must be equal.

8 Put the doubled zpagetti through the holes in the wooden balls.

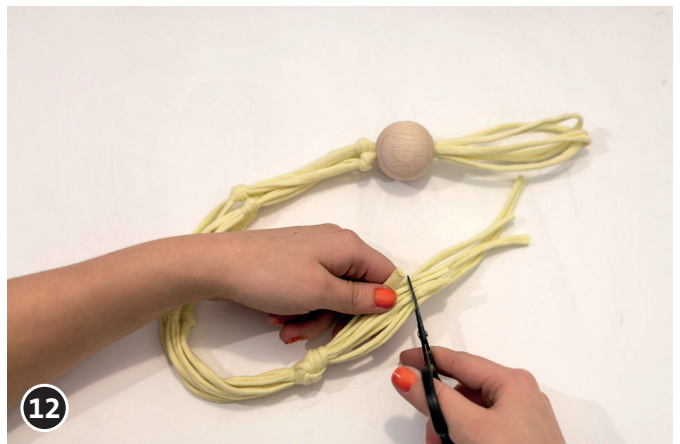

9 Make the knots on 2 threads.

10 Knot the rest in the same way.

11 Now knot all the threads together.

12 Shorten the ends to make them look nice.

Put the bowl carefully into your macramé. Now your garden decoration is finished.

*OPITEC Creative team wishes you lots of fun!*
