# Retro soap

#### Required items

	Article no.	Quantity
Casting soap 1000g, white	498993	2
Casting soap 300g, transparent	498971	1
Soap colour, opaque 10ml, apricot	466082	1
Soap colour, opaque 10ml, aubergine	466093	1
Soap colour, opaque 10ml, ocean blue	466118	1
Soap colour, opaque 10ml, stone grey	466163	1
Soap colour, opaque 10ml, ivory	466152	1
Soap fragrance oil 10ml, lemon	481189	1
Soap fragrance oil 10ml, rose	497171	option
Soap fragrance oil 10ml, lavender	481178	option
Soap fragrance oil 10ml, green apple	497241	option

#### Recommended materials/tools

Soap casting mould rectangular approx. 120x200x15mm, transparent	466325	1
Cutting set Ring, Ø29-112mm, 14 pcs	541375	1
Spatula approx. 40mm	345022	1

#### Tools required

Protective mat, scissors, sharp knife, melting pot (or pot for water bath), spoon, casting mould, round cutters, spatula

**1**  
You need to melt approx. 350g of white casting soap. Add the desired color. Mix the color carefully with a spoon. The ivory colour can be added to brighten the colors.

**2**  
Now you can add the soap fragrance oil. Pour the soap into the rectangular mold. Leave the soap to cool. Using the knife take the cooled soap block out from the mold. Do the same with other colours of soap (apricot, aubergine, blue ocean, stone gray)

**3**  
Using the ring cutters cut the rings from the blocks. Use the same size of the cutter for a particular colour. Remember that the rings must be joined together!

**4**  
Put the soap rings of different colors into one another to form one big soap circle approx. (ø 10 cm)

**5**  
Melt some transparent soap. Pour this soap into any gaps between the individual rings. Heat a spatula under hot water. Use it to remove the excess of transparent soap from the top surface. Now fix two colourful soaps (thickness approx. 15 mm) with a liquid, transparent soap. The soap height is now about 30 mm (double soap).

# Crocheted bags for your soap

Required material	Article no.	Quantity
Paper yarn 55m, silver grey	591901	1
Paper yarn 55m, lilac	591875	1
Paper yarn 55m, mint	591886	1
Paper yarn 55m, powder	591853	1

Recommended materials/tools		
Crochet needle approx. 140mm, 4,5mm	521809	1
Crochet needle approx. 140 mm, 5,0mm	521129	option

## Tools required

Crochet needle, scissors, tape measure

1 Take the paper yarn in your hand. Wrap it twice onto your thumb.

2 Make a chain stitch on the wrapped thumb.

3 Drag the 'thumb-loops'

4 Crochet around the thumb loops.

5  
 Adjust the desired loop size.  
 When the loop is complete you begin the second row of them. Crochet now so many rows with crochet until the size is approx.  $\varnothing$  11cm. The color of the paper yarn can be changed whenever you like. For 4 soap bags you need 8 crocheted pieces. Then you sew the pieces together, 2 for each bag.

6  
 Put two pieces on each other.  
 Crochet them on the edge together. Remember to leave the opening for your soap!

7  
 You can leave the ends of yarn to knot them later. Do the same with other bags.

*OPITEC Creative team wishes you lots of fun!*
