## Threading Variety 1:

Instructions:

1. Thread various beads on a strand of approximately 250 mm and knot the ends.
2. Now thread 2 more beads strands. One for the center: The length is measured by the glass perimeter. One for below: glass diameter 250 mm + 60 mm longer.
3. For the pendants thread 4 beads strands of approx. 120 mm. Now attach them together and hang an acrylic diamond at the end.
4. Knot the pendant with the beaded wire at the top.
5. The middle beads strand is now centrally placed on the glass and fixed to the pendant.
6. Repeat the point 5 with the pearl strand below. Here the distance has to be slightly larger.

---

## Threading Variety 2:

Instructions:

1. Thread various beads on a strand of approximately 250 mm and knot the ends.
2. Now thread 7 more beads strands of approx. 200 mm length. Now attach them together and hang an acrylic diamond at the end.
3. Pull the end with the acrylic diamond over the glass bottom and attach the strands crosswise at approx. 80mm.
4. Fix them at the upper beads strand at regular intervals.

---

## Threading Variety 3:

Instructions:

1. Thread various beads on a strand of approximately 500 mm and knot the ends.
2. Wrap the bottle firmly with the pearls strand.
3. If desired, thread some beads and acrylic drops at a 50 – 100 mm piece of wire and fix it at the beads strand.
