Jewellery Pins, gold, 100 piece	548001	1X

## Recommended Tools/ Material (Tools/ Material are not included in delivery)

Pliers for making Eyelets	725133
Pliers, set of 6	304609
Bead Threading Board	420620

1 Thread 3 glass cut beads (cone) and 3 ripple beads with rocailles on prisms pins (see picture).

2 Bend the pin with pliers to make an eyelet in each threaded prism pin.

3 Hinge a spacer into the tassels.

4 Cut the metal chains to your desired length (approx. 84 cm).

5 Measure from above about 26 cm. Then clip a prepared (step 1) ripple beads pin, together with a spacer in the chains on both sides. In addition from there measure 10 cm and clip the next ripple beads pin. Now close the chain loop.

6 Produce prism pins with only one glass cut bead, ripple bead or tassel (step 1 and step 2). Fix a spacer at each pin and clip them in the chain at a place of your choice.

Thread the small golden chain through the spacers and fix them at the big chain.

Connect the ends of the chains with a spacer and clip the carabiner clasp at one side.

Total Length: approx. 42 cm
