

Instructions - Chatons Collier

Collier gold/crystal:

Used Material	Article No.	Qty
Mesh tube metal, gold, approx. 1 m x 7 mm	725454	1 x
Acrylic Chatons, crystal, 10 g	726380	1 x
Glass Beads, crystal, 18 pcs	599437	3 x
Magic String, white/transparent, 10 m	205709	1 x
Metal - Magnetic clasp, gold, 2 pcs	592918	1 x
Metallic Cube silver, 17 g	431519	1 x
Metal intermediate part, round silver matt	726472	1 x
Wire, brass, 50 m	206705	1 x
Recommended Tools/Material		
Jewellery adhesive	567663	
Beads Threading Board	420620	
Bead Tool	721254	

Fill Chatons with the bead tool into the mesh tube. 10 g acrylic Chatons last for approximately 480 x 7 mm tube.

Slide the metal intermediate part up to the middle of the mesh tube.

Thread 18 glass beads and metallic cubes alternating on the Magic String. Now thread the magic string through the metal intermediate part and repeat the procedure.

At the end connect the magic string and the mesh tube with a piece of wire. Cut the ends straight and glue them with the jewellery adhesive in the clasp. Let dry overnight.

Total length: approx. 350 mm
