Glue Sticks, 25 pieces	301139	1

Required Tools

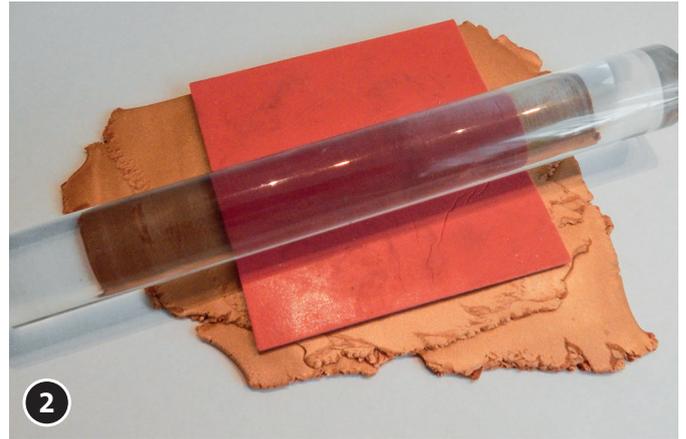

Surface, Kneading Machine, Modelling Roller, Scissor, sharp Knife, FIMO® Cutter - Set, Baking Paper, Cutting Machine or Cutter Knife, Adhesive Stick, Liquid Glue (or Hot Glue Gun)

Instructions:

(The instructions are transferable to all shown cards.)

1 Knead FIMO chocolate and Premo! copper lukewarm. About 3 mm thick plate each.

2 Place the front of the texture mat on the copper Premo! plate and use the acrylic roller to press.

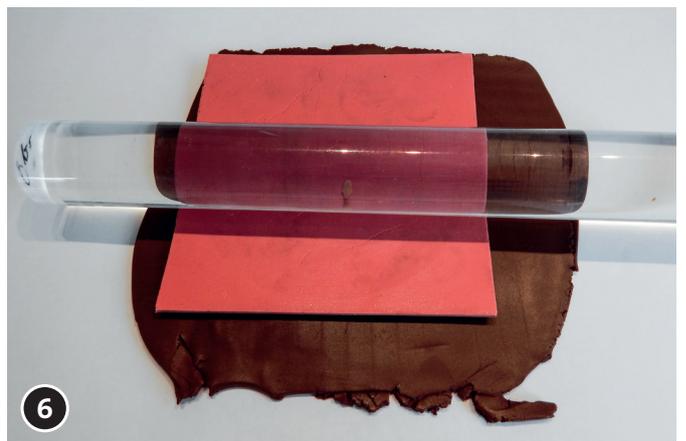

3 Turn the structure mat and use your thumbs to press the copper mass into the motif.

4 Remove the excess modelling mass with the flexible cutter knife several times in thin layers.

5 Finally, it should only be copper coloured modelling clay in the recesses.

6 Place the stuffed mat on the chocolate plate and transfer the copper motif by using the acrylic roller.

Cut out the motif with the matching Cutter.

Put the motif at 110 ° C 30 minutes in the oven and let it cool in the air afterwards.

Paste the pearl white square card with the matching glitter carton (adhesive).
Fix the modelled motif with hot glue gun (or liquid adhesive).

*Have fun!
