

# Mosaic Gazing Balls

## Used Material

	Article No.	Qty
Polystyrene Ball, approx. ø 300	507250	1
Glass Mosaic, approx.. 10 x 10 mm, approx. 3 mm thick, 200g	559602	1
Mosaic Softglass, polygonal shapes, approx. 10 – 20 mm, approx. 5 mm thick, 200g, green mix	514305	1
Mosaic Softglass, polygonal shapes, approx. 10 – 20 mm, approx. 5 mm thick, 200g, yellow/ red mix	514316	1
Mosaic Softglass – Colour , approx. 10 – 10 mm, approx. 4 mm thick, 200g, green mix	320827	2
Mosaic – Crash Glass, approx. 5 – 45 mm, approx. 4 mm thick, 200g, green mix	563256	1
Mosaic Glass Stones – Mix, 10 x 10 mm, 200g, green mix	512646	1
3D-Kit Silicon Glue, 80 ml, transparent	314798	1
Mosaic Grout, 1000g, white	504906	2

## Recommended Tools/ Material

Disposable Protective Gloves, Size M, 100 pieces	936396	1 or
Disposable Protective Gloves, Size L, 100 pieces	942458	1

## Required Tools

Surface, Scissor, Measuring Tape, Pen, Kitchen Roll, Spatula, Measuring Cup, Mixing Bowl, Sponge, Cloth, Disposable Protective Gloves

Stick the two Polystyrene ball halves together (3D-silicone).

Mark the desired pattern with a pen on the ball, then start fixing the mirror mosaic (559602) with the 3D-silicone.

Now stick the different mosaics all over the ball. Let the silicone dry overnight.

Mix the mosaic grout with water according to instructions. Put the protective gloves on and distribute the grout on the mosaic surface. After 15 minutes take the excess grout off with a sponge. Repeat this procedure several times. Let the grout dry overnight. Polish the mosaic surface with a dry cloth.

**Hint:**

Use mosaic joints finish (N ° 547728) or cold glaze (N ° 437939, N ° 424222) to make the balls weatherproof.
