Metal pendant Disc, approx. Ø 23 mm, platinum-coloured	572419	1
Spacers, approx. Ø 15 mm, 8 pcs, platinum-coloured	583836	1
Recommended tools/material		
Mixing cups, approx. 1000ml, set of 12	478427	1

Tools needed

Protective cover, measuring jug, mixing bowl, whisk, vegetable oil (or Formstone separating agent), kitchen paper, round and bristle brushes, round-nose pliers, side cutter, scissors, adhesive tape

Instructions

(basic instructions work for all three silicone projects)

1. Cover the silicone moulds, with separating agent (use according to instructions).
2. Mix the creative concrete with water as per instructions.
3. Since there are no eye bolts in the silicone moulds, use shorted head-pins and add them to the creative concrete.
4. Pour the concrete in the moulds, leave to harden overnight and then take out of the moulds.
5. Let the concrete dry out completely.
6. Apply the varnish with a brush, air and then add the metal leaf. (Use the varnish as per instructions.)
7. If desired attach the ornaments using the round-nose pliers or fasten with cord.
8. Cut the leather or satin cord to the required length and fasten.
9. Connect the beginning and end of the necklace with a jump ring.
10. 1For the ear rings attach the ear wires to the concrete pendants with jump rings.
