Stamp pad - mini chalk colour, approx. 45 x 25 mm, red berry	617173	1
Stamp pad - mini chalk colour, approx. 45 x 25 mm, petrol	551763	1
Recommended Tools		
Plaster mould - half sphere approx. ø 200 mm	516167	1
Plaster mould - half sphere approx. ø 150 mm	516156	as required
Plaster mould - half sphere approx. ø 100 mm	516134	as required
Synthetic sphere crystal clear, 2 parts, approx. ø 160 mm	490087	1
Synthetic sphere crystal clear, 2 parts, approx. ø 120 mm	490065	1
Synthetic sphere crystal clear, 2 parts, approx. ø 100 mm	490054	1
Modelling roller approx. ø 25 mm x 200 mm	807196	1
Craft knife, for fine cuts	301530	1
Tools Required		
Pad (baking paper), sharp knife, modelling roller, hairdryer, scalpel, sponge		

Roll out an approx. 7 mm thick slab of soft clay with the modelling roller.

Place half of the desired acrylic sphere on the clay slab. With a sharp knife cut a round disc around the sphere's edge.

With the wooden stamp take ink from the stamp pad. Imprint whole disc with the stamp.

With the wooden stamp take ink from the stamp pad. Imprint whole disc with the stamp.

Dry ink with a hairdryer.

5  
For curing put disc into a half sphere mould or a large synthetic half sphere.

6  
Allow to dry in the mould for approx. 1 - 2 days.  
Drying time depends on the size of the workpiece.  
After drying remove bowl from the mould.  
Allow residual moisture to escape.

7  
If desired, you can colour the rim of the bowl with the stamp pad.  
Again dry ink with hairdryer.

Caution!  
Clay bowls are for decoration, NOT  
suitable for food!
