STEINEL® Glue Gun Gluematic 3002	319101	1
Glue Sticks, approx. ø 11 x 200 mm, 25 pieces	301139	1
Tools Required		
Working pad, paper, pen, ruler, wet wipes, roller, sharp knife, baking paper, baking oven, scissors, white pebbles for decoration (or sand)		

1. Draw various designs of angel's wings on paper (or print from the internet).
2. Cut out paper wings for use as modelling pattern.
3. Knead FIMO® modelling clay until a little warm.
4. To change colour shadings you can mix different colours of FIMO® modelling clay with each other.
5. Clean your hands with wet wipes before changing colours (of the FIMO® modelling material).
6. Roll out a FIMO® slab approx. 3 - 5 mm thick.
7. Place the embossing moulds on the FIMO® slab with the backside facing upwards.
8. Use the roller to emboss the slab.
9. Place the wing pattern and cut out using a sharp knife.
10. You can make a hole in the wing for hanging up.
11. Place FIMO® wings in the oven and fire at 110°C for 30 minutes.
12. Allow to cool down.
13. Fasten angel's wings using the glue gun.
14. Select deco ribbon and fasten to the glasses making a bow if you like.
15. Also attach the natural material (glue gun).
16. Fill deco pebbles or sand into the glasses.
17. Place tealights into the glasses.

Caution!

Don't leave burning tealights unattended!
