Christmas Goblins

Material Used	Article Number	Quantity
Polystyrene Cone, approx. ø 110 x 260 mm, white	507456	1
Polystyrene Cone, approx. ø 200 x 500 mm, white	555387	1
Mosaic Byzantic®, 1 kg colourful mix (approx. 10 x 10 x 4 mm)	593176	1
Mosaic Glass Tiles 10 x 10 x 4 mm, 200 g, red	539583	2
Mosaic Glass Tiles 10 x 10 x 4 mm, 200 g, fir green	539631	1
Mosaic Glass Tiles 10 x 10 x 4 mm, 200 g, light green	539620	1
3D-Kit Silicon Glue, 80 ml	314798	2
Mosaic Grout, weather resistant, 1000 g	504906	3
Wooden Balls Natural, approx. ø 10 mm, 40 pieces	601871	1
Wooden Balls Natural, approx. ø 15 mm, 20 pieces	601893	1
Wooden Balls Natural, approx. ø 20 mm, 12 pieces	601929	1
Marabu Acrylic Paint Decormatt, 50 ml, cherry red	484660	1
Marabu Acrylic Paint Decormatt, 50 ml, skin-coloured	484659	1
Marabu Acrylic Paint Decormatt, 50 ml, black	455724	1
Fleece Wool - Combed, 50 g, natural white	528685	1
PintyPlus® BARNIZ VARNISH – clear, 400 ml, matt	617896	1
Recommended Tools		
Disposable Protective Gloves, 100 pieces, Size M	936396	1
Disposable Protective Gloves, 100 pieces, Size L	942458	alternatively
STEINEL® Glue Gun Gluematic 3002	319101	1
Glue Sticks, approx. ø 11 x 200 mm, 25 pieces	301139	1
UHU Crafting Glue 90 g	300100	alternatively
Mosaic Cutters Universal Pliers, approx. 200 mm long	578264	1
Tools Required		
Working pad, ruler, pen, scissors, kitchen roll, measuring cup, mixing bowl, spatula, sponge, cloth, disposable protective gloves, brush, water vessel, mosaic pliers		

Basic Instruction Mosaic

1. If necessary, draw the mosaic surface with a pen on the base.
2. Fix the mosaic tiles with glue to the support.
3. Allow glue to dry overnight.
4. Mix grout compound with water according to product instruction.
5. Spread grout on the mosaic surface wearing disposable protective gloves.
6. After approx. 15 minutes remove excess grout with a damp sponge.
7. Repeat this process several times.
8. Allow to dry overnight.
9. Polish the mosaic surface with a dry cloth.

Start placing the red mosaic tiles and byzantic tiles at the rim of the cap. Fix several rows of tiles.
For the face draw a semicircle on the polystyrene cone.
To this semicircle glue light-coloured byzantic tiles. If necessary use the mosaic pliers to cut into desired shape.

Then use light-coloured byzantic tiles for the remaining area (around the face). Below the face glue one row of white glass mosaic tiles. To the remaining area at the lower cone area attach green glass and byzantic mosaic tiles.
Glue red glass and byzantic mosaic tiles to the remaining area at the upper cone area.

Mix mosaic grout according to product instruction.
Add some red acrylic paint to the grout to colour the grout.
Apply grout to the cone (as described in basic instruction).

Also seal the areas of the face and body with grout. (Here the grout will not be coloured.)

After drying and polishing of the mosaic surface start decorating. Paint wooden balls for eyes and nose with acrylic paint (large goblin: eyes 15 mm, nose 20 mm balls / small goblin: eyes 10 mm, nose 15 mm balls). Allow paint to dry. Take the glue gun (or crafting glue) to fix eyes, nose and wool beard.

To weatherproof the beard, you can use clear varnish spraying several times.
