side catter, seissors, not give gan with give steks			

1. Draw star and triangle shape on paper (or copy shapes from the internet in the desired size).

2. Cut out paper shapes (for later use as model).

3. Knead soft-clay until a little warm.

4. Roll out a clay slab of approx. 10 mm.

5. Emboss soft-clay with the desired stamp.

6. Place paper model (triangle/star) on the embossed clay and cut around the border using a knife.

7. With a wooden stick bore a hole at the upper edge of the clay form. (Here you later fix the wire.)

8. For the angel's legs bore two more holes at the lower edge.

9. Place the soft-clay forms on baking paper. Allow to air-dry for 1 - 2 days (according to size).

10. Thread wooden balls to wooden sticks. Spray with golden and silver coloured paint and allow to dry.

11. To the dried clay forms apply paint using the stencil dabbers.

Do the same with part of the wooden stars.

12. Allow paint to dry.

13. Bend black Aluminum wire to shape forming the angel's head and wings (side cutter/ round nose pliers).

14. Attach head/ wings from wire to the holes at the upper edge of the clay triangle.

15. Additionally fix with hot glue (or crafting glue).

16. Cut wire to size for angel's legs and bend feet using the round nose pliers.

Attach legs to clay form additionally using glue.

17. Make angel's hair by twisting a piece of wire around a pen (or round nose pliers).

18. Attach wired hair to the angel's head with wire.

19. Attach wooden stars and jute bow to the angel's body.

20. For the star pendants thread wooden balls to a piece of aluminum wire and twist this around a piece of birch bark.

21. At the upper end of the wire bend a loop and cut off.

22. To the lower end of the wire thread the clay star and fix the wire.

23. Glue wooden stars.

Have fun creating and enjoy! Your OPITEC Creative Team!
