Concrete Bowls Orient

Material Used	Article Number	Quantity
Big Bowl:		
Plastic ball ø 20 cm (outside)	616074	1
Plastic ball ø 18 cm (inside)	616063	1
Material requirement for large bowl approx. 1000 g creative concrete		
Middle Shell:		
Plastic ball ø 16 cm (outside)	490087	1
Plastic ball ø 14 cm (inside)	490076	1
Material requirements for large bowl approx. 750 g Creative Concrete		
Small Bowl:		
Plastic ball ø 12 cm (outside)	490065	1
Plastic ball ø 8 cm (inside)	490043	1
Material requirements for medium bowl approx. 450 g Creative Concrete		
Creative Concrete 1000 g	570130	Other requirements
Creative Concrete 2500 g	570152	Other requirements
Creative Concrete 8000 g	572084	Other requirements
Release Agent - Formestone 100 ml	480666	1
Marabu - do it Matte Satin Spray 150 ml, black	618216	1
Reeves acrylic paint 75 ml, mars-black	442307	alternative
POSCA Marker PC-3M, with fine tip, set of 16	615920	1
Recommended Tools		
Disposable Protective Gloves, 100 pieces, Size M	936396	1
Disposable Protective Gloves, 100 pieces, Size L	942458	Other requirements
Measuring cup - set, 3 sizes, set of 3	729399	1
Tools Required:		
Pad, bristle brush, water cup, (disposable) gloves, kitchen scale, Mixing bowl, spatula (old whisk), pebbles or sand, kitchen roll, scissors, cling film, adhesive tape		

Pour concrete shells

Mix creative concrete according to product instructions. Coat both hemispheres with Formestone using a brush. (Large ball half inside, small ball half outside.) Depending on the desired depth of the tray, pour the concrete layer into the interior of the large ball half (wait approx. 15 minutes).

Place the smaller ball half centered on the concrete layer. Pour out the resulting intermediate gap with concrete.

Fill the smaller half ball with pebbles or sand. Allow concrete to harden. (Depending on model size about 1 - 3 days.)

Remove the inner half of the ball.

Remove the outer half of the ball. Allow residual moisture to dry completely.

Decorate concrete bowls

Caution!
Do not use trays for food storage!

Spray the desired concrete surfaces with black Do it Spray (alternatively apply Reeves acrylic paint with a brush).
Cover areas to be protected with foil or adhesive tape.
Let the black paint dry. Paint floral design with Posca pens on the black areas. Allow the paint to dry.

Have fun creating!
Your Opitec Creative Team!
