Sewing Thread, each approx. 60 m long, assorted, black/white, set of 6	729355	
Household and Sewing Scissors, approx. 150 mm long, 1 piece	361233	

## Instruction

1. Cut the fabric, depending on the desired size, into two triangles of approx. 50 x 50 mm.
2. Embroider the front of one fabric cut with pearls. If desired, the back of the second fabric can also be embroidered.
3. Place the front side on the back and sew the two side panels together with small lockstitches. Now fill with some filling cotton from below.
4. Legs: Cut off a piece of the aluminium wire of approx. 100 mm. Shape into a hanger, bend both ends together, place the hanger at the bottom between the fabric and sew the fabric edge together.
5. Head: Thread polaris beads with a piece of 0,25 mm (silver) wire and sew in the upper middle of the fabric.
6. Halo: Insert an approx. 40 - 50 mm long piece of aluminium wire into the hole of the polaris bead from both sides and bend it into a halo.
7. Sew metal-wing at the back in the upper area.
8. Tie a bow with the deco cord around the neck.
9. If desired, sew on a border with the lace ribbon at the bottom.
